

Lull Telehandler Chain

Telehandlers by Lull have been supplying load placement precision ever since 1959. The Lull telehandler could help make the task easier and faster, whether the job entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are complete along with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull can provide eighty inches of boom travel for precision placement capabilities. There are also numerous optional Lull attachments for their telehandlers so as to help do whatever job.
