

Quick Attach Work Platforms

Handy lift truck work platforms connect safely and quickly to the lift truck through putting in blades into fork pockets and chaining platform to the lift truck. These enhancements are often utilized in order to safely and efficiently transfer maintenance workers. The fork lock or tine ought to be engaged to be able to lock the platform to the tines rightly. This attachment includes a checker floor plate platform as well as a long strap with hook in order to securely attach the platform to the tine truck. These work platforms are constructed of welded steel and powder coated utilizing a blue finish. They have a hoisting capacity of 1000 lbs.
